

Carraig Dúlra organic farm & training centre is running a new **Junior Naturalist Programme** for children aged 5-8 and 9-12, taking place over three Friday afternoons in May.

All three sessions will be at the farm, which is in **Glenealy**. The children will explore wild areas of the farm and learn about wild plants, creatures, habitats, and biodiversity, with the help of local experts.

Parents/grandparents and families are encouraged to attend with the child; each child needs to be accompanied by at least one responsible adult. The cost is **€35**, which covers all 3 dates and includes handouts and notebooks.

There are limited places on this programme, which is part-funded by a *Local Agenda 21 Environment Grant* from Wicklow County Council. To register, please fill in the form below and send along with payment as soon as possible.

Registration for Junior Naturalist	
Child's name: _____	Age: _____
School: _____	
Any special needs/requirements:	
I give my consent for my child to attend this farm-based event with me, and will take full responsibility for my child while there.
